

About TAMI

INTRODUCTION

TAMI (Taiwan Association of Machinery Industry) was founded in October 1945, and originally named "Taiwan Association of Iron Industry." It was then renamed "Taiwan Provincial Association of Iron Industry." In May 1947, the organization was reshuffled and became "Taiwan Provincial Confederation of Machinery Industry." Finally, on April 28th 1948, the name TAMI was officially established.

In 1999, TAMI was certified as an ISO9000 organization by the Bureau of Standards, Metrology & Inspection of the Ministry of Economic Affairs. Later in 2009, TAMI was certified as "International ISO9000: 2008/CNS 12681 Quality Management System", with the policy of "Upgrading our service, and pursuing collective benefits for our members."

In recent years, TAMI has intensively conducted numerous machinery export promotion delegations, as well as trade fairs in domestic and international market places.

"TAMINet" was established as a multilingual website geared towards machinery promotion. The website is available in Mandarin Chinese, English and Japanese. This easy to use website is essential in helping company members offer customers quotes and technical information with just a few clicks of the mouse. "TAMINet" is a business platform that provides machine builders and the satellite companies the ability to connect with each other for sales cooperation and technical discussion. It is also a professional machinery forum for both buyers and sellers who wish to acquire up-to-date market information, CE conformity guidance, and so on. "TAMINet" helps greatly increase the competitiveness of all its over 2,740 company members in the international market place.

TAMI'S FUNCTIONS

1. Protection of members' legal rights.
2. Sponsorship of members' general interest activities.
3. Assistance in licensing and certification of members, and certification of members' bids in public tender.
4. Involvement in the formulation of economic policy and business laws and regulations by the government.
5. Performance of general services for members, business groups and public officials on request.
6. Investigation, research and compilation of information on domestic and foreign machinery industries.
7. Investigation on materials and energy resources for machinery manufacturers, and coordination of the related resources for members.
8. Promotion of technical cooperation in the industry.
9. Compilation of information on marketing, and assistance in marketing for members.
10. Support in exhibiting members' products, and encouragement of intercommunication and information sharing among members.
11. Research of labor productivity, sponsoring and promoting technical training and seminars.
12. Investigation of members' business practices and services.
13. Maintenance and registration of data on members and their representatives.
14. Arbitration in member or labor-management disputes.
15. Participation in social activities.
16. Fulfilling other duties required by law or government authorities.

AWARDS AND RECOGNITION

Won the "Excellent" and "Superior" team awards and "Excellent Staff" award from the Ministry of the Interior. Every year, the Ministry of the Interior holds the performance evaluations for Taiwan's industrial, commercial, and freelance groups, as well as the excellent staff of national professional groups, and TAMI has won the "Excellent" and "Superior" team awards and "Excellent Staff" award.

Won the "Excellent Supervisor" award from the Chinese Federation of Labor. From 1994 to the present, every year we have participated in the selection of the excellent supervisor of industrial and mining groups held by the Chinese Federation of Labor, and TAMI has always been successfully honored as "Representative of Excellent Supervisor."

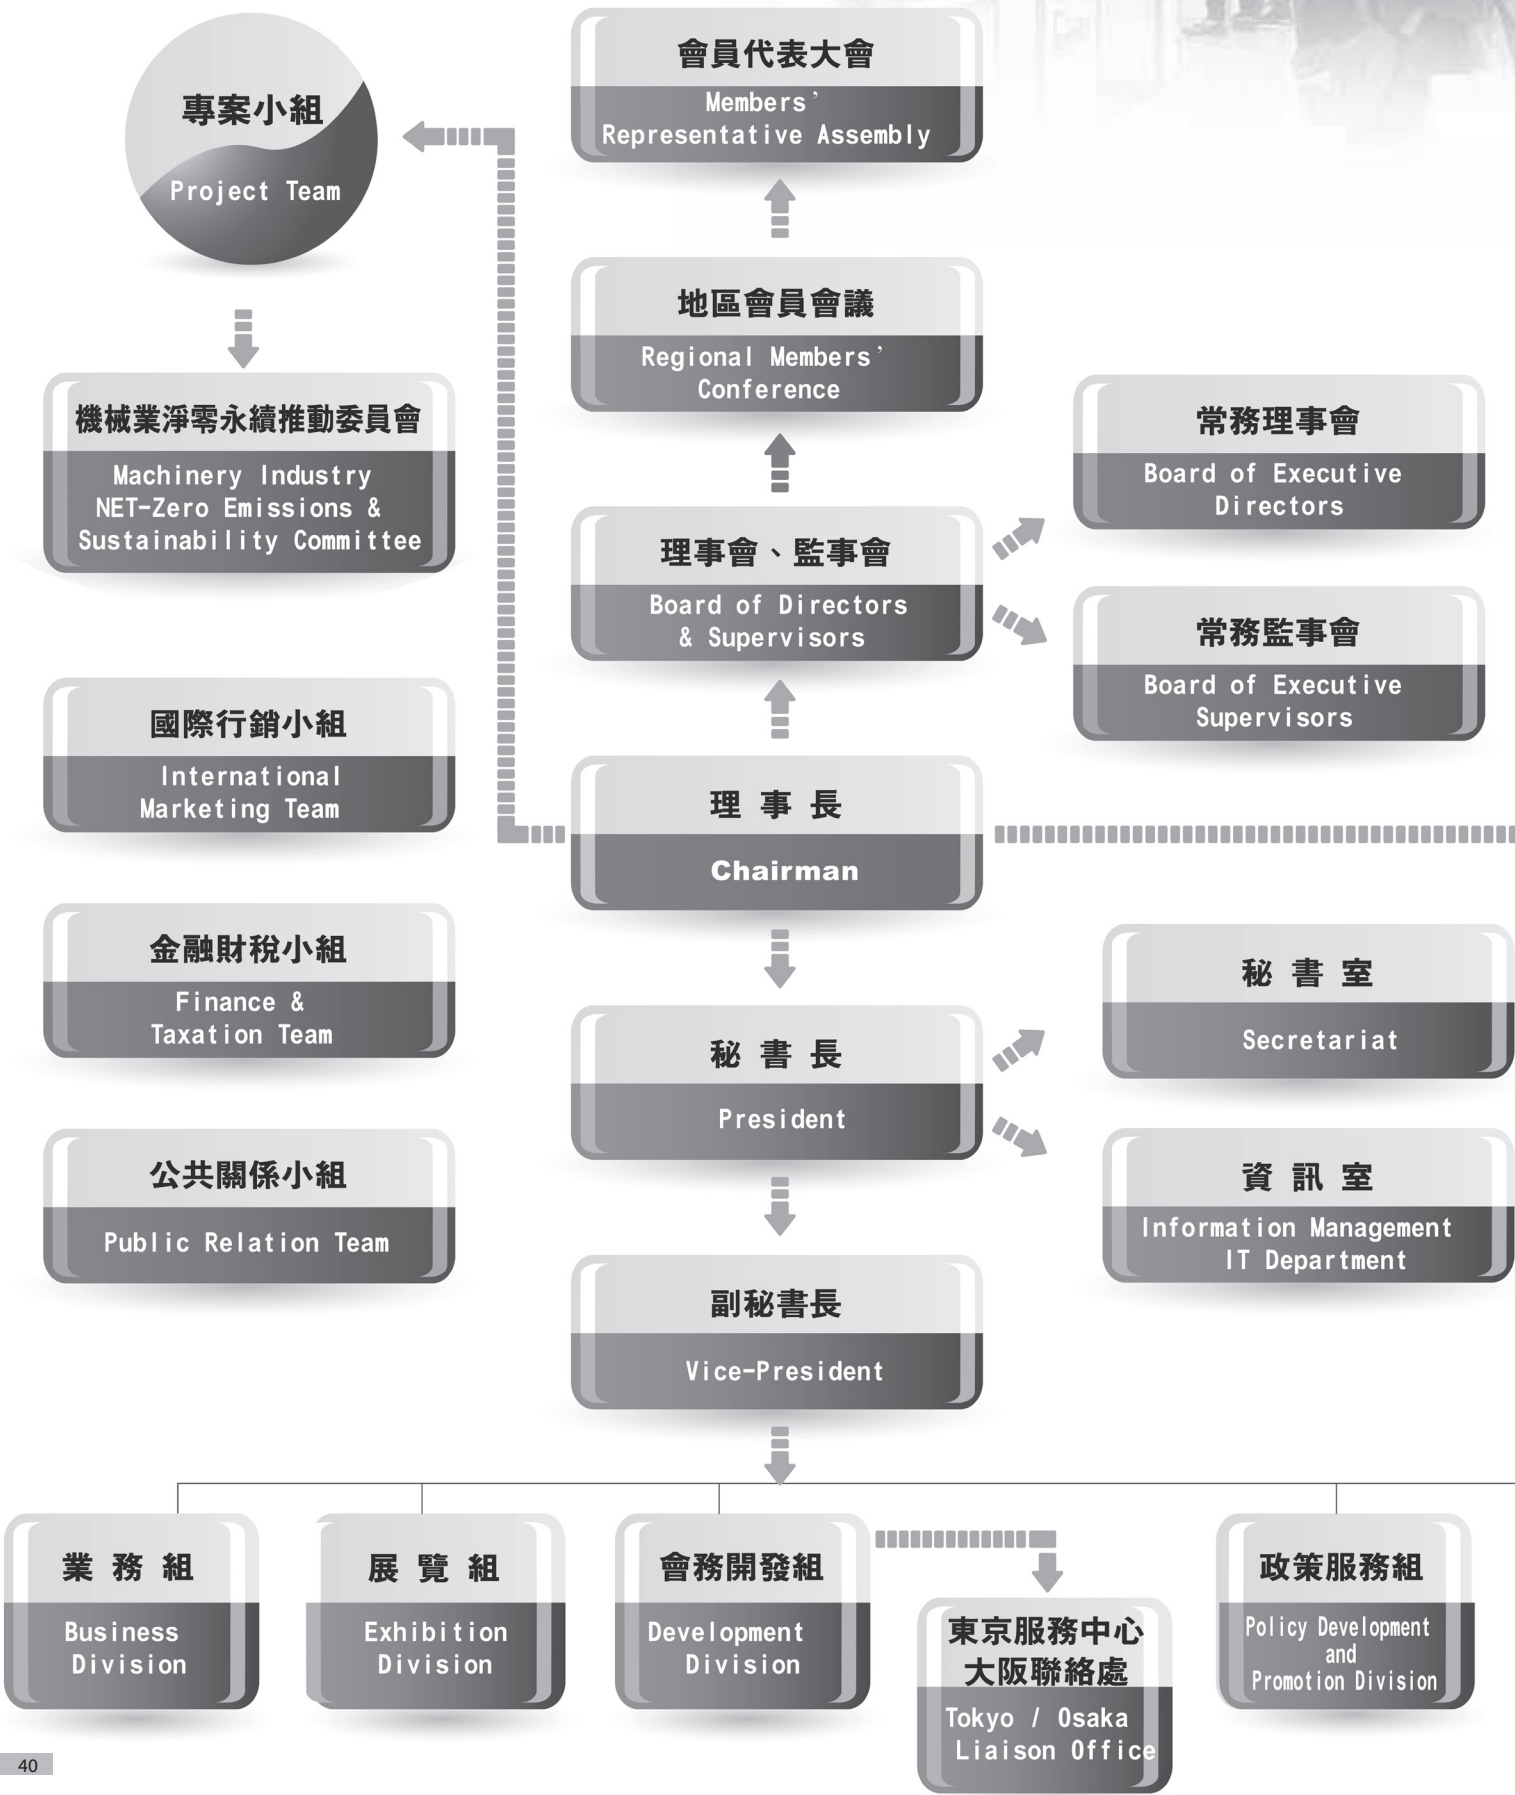

Since 1999, TAMI has passed ISO 9001:2000 quality assurance certification issued by the Bureau of Standards, Metrology and Inspection, M.O.E.A. We have also passed the certification and license of ISO 9001:2015.

TAMI won the 25th National Quality Award for the first time on December 6, 2018 – a function model category (Industry Support Model Award). TAMI is the first association to win this.

TAMI won the "2021 Industrial Nature Safety Promotion Award" and "Excellent Award" issued by the Occupational Safety and Health Administration, MOL, and Chinese National Federation of Industries. In addition, Z.C. Chen, Deputy Secretary-General, won the "Talent Award."
