

rosmould
& 3D-TECH

**International Exhibition
for Mould and Tool Making,
Equipment and Technologies
for Product Manufacture**

17–19 June 2025

Crocus Expo, Moscow, Russia

**From Ideas
to the Finished
Product**

rosmould & 3D-TECH

Rosmould & 3D-TECH is a unique specialized exhibition dedicated to mould and tool making in Eastern Europe. It has been conducted in Russia since 2006, since 2010 – together with International Exhibition of Machinery and Materials for Plastics Industry Rosplast.

Product groups

Design and product development

Moulds. Die moulds. Stamps

Equipment and tools

Repair and maintenance

3D-TECH – Additive technologies and 3D printing

Facts and figures*

Exhibitors

504 exhibitors from **10** countries

+42% exposition growth compared to **2023**

96 Russian manufacturers

58% International exhibitors

38% new exhibitors

92% confirmed their participation in **2025**

Participating countries

Azerbaijan

Belarus

China

Germany

India

Iran

Jordan

Russia

Taiwan

Türkiye

National pavilions

China

Iran

Türkiye

Visitors

10 683 unique visitors

+6% visitors' growth compared to **2023**

80 regions of Russia

28 countries

57% new visitors

40% regional visitors (excl. Moscow and Moscow region)

*According to the cumulative data with Rosplast 2024.

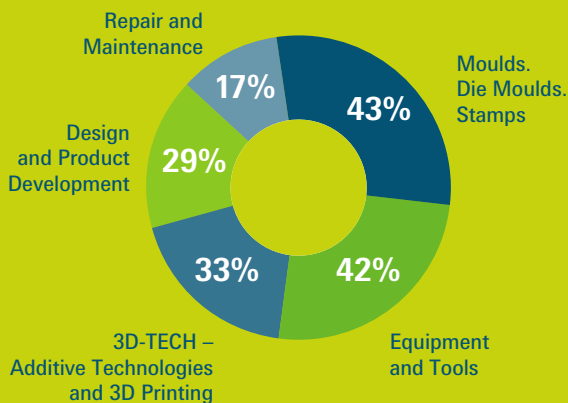

Visitors' Business Sectors

| | |
|---|-----|
| Mechanical engineering and metalworking | 13% |
| Packaging | 11% |
| Consumer goods | 9% |
| Chemical and petrochemical industry | 8% |
| Automotive | 8% |
| Electronics and electrical engineering | 7% |
| Construction | 7% |
| Medical industry | 6% |
| Aerospace industry | 4% |
| Defense industry | 4% |
| Waste processing / Recycling | 4% |
| Energy | 3% |
| Agriculture | 3% |
| Appliances | 3% |
| Research institutes / Educational organizations | 3% |
| Consulting / Services | 3% |
| Shipbuilding | 2% |
| Jewelry industry | 2% |
| Unions / Associations / Professional associations / Media | 1% |

Position in the company

| | |
|--|-----|
| Division manager / Head of department | 26% |
| Owner (co-owner), self-employed | 20% |
| Engineer / Designer / Technologist | 19% |
| Manager / Marketer / Specialist | 15% |
| Managing director, CEO, Deputy managing director | 12% |
| Freelancer | 4% |
| Student | 3% |
| Non-working | 1% |

Visitors' interest*

Purpose of visit

| | |
|---|-----|
| Looking for new suppliers / new business contacts | 21% |
| View / get to know trends, new developments, new products | 19% |
| View / get to know new products, services, solutions for manufacturing and business | 17% |
| Expand specialist knowledge | 12% |
| Develop existing business relations | 11% |
| Conduct purchases | 8% |
| Workshops | 5% |
| Business programme | 4% |
| Personal interest | 3% |

*Several options were possible.

Business programme

4 Conference areas

20+ events

140+ speakers

International Tooling Forum

Partners:

3D-TECH Additive Technologies Forum

Within the framework of the Forum:

- Technologies day
- Mechanical engineering day
- Medicine day

Conference on Mould Design and Injection Moulding

Organizer:

ALSO, WITHIN THE FRAMEWORK OF ROSPLAST 2024:

PlastForum – Forum of the Plastics and Recycling Industry

Co-organizer:

Exhibitors' feedback

Vyacheslav Ponomarev
Director
KB Press-Forma

This year we have had quite a lot of contacts with both our regular customers, with whom we have been working for a long time, and with new customers. I think that the result is obviously greater in terms of the number of leads we have collected. And in terms of the number of good, quality contacts this exhibition went very well for us.

Nikolay Koshelev
General Director
IMID

I am honestly shocked, I never expected this. We have a very positive impression of the number and competence of the participants. We have acquired many new clients during the exhibition. We have had a huge number of interesting meetings, discussions, impressions.

Ravil Gabitov
Head of Thin Films dept.
Horizon of Coatings

We participate in this exhibition every year. For us Rosmould exhibition has always been distinguished by its quality approach. Almost all visitors come with technical tasks, problems, questions. And it makes this exhibition especially effective.

Mikhail Artiushkov
CEO
INNFOCUS

The number of visitors is growing, and the level of competence of these visitors is also growing, which is very important. Companies, technologists, designers are coming, to whom it is no longer necessary to explain what 3D printing is. They already know it very well, because 3D printing has already become a basic production technology.

Nikolay Drobchenko
Director of Additive
Technologies dept.
3DLAM

This year the exhibition looks bigger and more interesting. The most important thing is that here we have met many target, interesting specialists from our industry. We see a great need to participate in Rosmould & 3D-TECH, because here we meet many narrow-focused specialists, whom we do not see in other places, for some reason.

Grigory Dragan
Technical Director
MGCGROUP

Rosmould is held together with Rosplast exhibition. This format of an integrated approach is very positive, since it unites both processors and toolmakers and gives potential customers the opportunity to close a wide range of their technical tasks by visiting one event in such a diverse format.

Together with the exhibition
